## The Band

After a brief stint rehearsing as an 80s cover band, former members of several Philadelphia bands have joined forces in a collective musical super-endeavor: Voltheque. Merging classic gothic rock influences like The Cult delightfully centered around a Duran Duran-esque groove, this band has plenty of originality to propel them into the modern age.

In a live context, Voltheque conjures an energetic performance like you've never seen, showcasing their pulsating rhythms and driving guitars to create a sound unique to the current Philadelphia music scene.

Stay tuned for their upcoming single, "Unearthed", which is currently in production at Philly Sound Studios.
